MANAGEMENT POLICY

December confirmed the upturn in equity markets since the beginning of the year. The EURO STOXX index (+1.20% in December and +26.1% for 2019) was buoyed by a number of factors, such as the Fed's reassuring message regarding the stability of interest rates, improving wages in the US, the suspension of certain customs duties on Chinese products and Boris Johnson's victory in general elections, enhancing visibility on Brexit. In a bullish market, the fund outperformed again this month.

Among our key positions, growth and high-quality stocks such as Worldline (+7%), Alstom (+7%), GTT (+7%) and Nemetschek (+10%) amplified the market uptrend. Some stocks that had already clocked up significant gains over the year did not participate in the month's gains, as evidenced by Spie (-2%) and Soitec (-3%).
