

KEY INVESTOR INFORMATION DOCUMENT

This document provides you with key investor information about this UCITS. It is not marketing material. The information within this document is required by law to help you understand the characteristics and the risks of this UCITS. You are advised to read it so you can make an informed decision on whether or not to invest.

CM-CIC CONVICTIONS EURO
ISIN Code Unit Class RC: FR0013384963
CM-CIC ASSET MANAGEMENT,
Crédit Mutuel Alliance Fédérale

OBJECTIVES AND INVESTMENT POLICY:

This UCITS' investment objective is to seek an annual performance, net of fees, that exceeds that of its benchmark index, the EURO STOXX Net Return Index, over the recommended investment period.
 The UCITS portfolio composition may differ significantly from the benchmark.

The UCITS' investment objective is to increase the value of your investment by investing in equities denominated in euros. The UCITS is actively managed and invests in shares and convertible securities denominated in euros (financial products which can be converted to shares) issued by companies established in the Eurozone.

The UCITS invests at least 75% of its assets in equities issued by companies whose registered office is located in a European Union country. PEA (French personal equity saving scheme)-eligible securities represent at least 75% of the assets at all times.

It complies with the following ranges of net exposure by asset class:

From 60% to 100% invested in equity markets of all geographic areas (including emerging markets), of all market capitalisations, and from all sectors. The UCITS may be exposed to equities from outside the European Union (10%) and equities from emerging markets (10%).

From 0% to 10% invested in sovereign debt instruments issued by the public or private sector, in the Eurozone (excluding emerging markets), in all rating categories, as assessed by the portfolio management company or by the rating agencies, or unrated

From 0% to 100% exposure to currency risk.

The manager may also expose the portfolio to financial futures contracts or options and securities with embedded derivatives, used for hedging and/or exposure to equity risk, interest rate risk, credit risk and currency risk, without causing an overexposure.

Assignment of distributable amounts: Total accumulation

This UCITS may not be appropriate for investors who plan to withdraw their money within 5 years.

Subscription and redemption conditions:

Subscription and redemption orders are centralised each business day at 12 noon (CET) and executed on the basis of the next net asset value calculated on that day's closing market price.

The net asset value is calculated daily, except on French public holidays or Paris Stock Exchange closing days (as per Euronext SA calendar).

RISK AND REWARD PROFILE:

1	2	3	4	5	6	7
---	---	---	---	---	---	---

MEANING OF THIS INDICATOR:

This indicator measures the level of volatility of the fund and the risk to which your capital is exposed.

The historical data used to calculate this synthetic indicator cannot be considered as a reliable indication of the future risk profile of the UCITS.

The risk and reward category shown is not guaranteed to remain unchanged and the categorisation of the Fund may shift over time.

Please note that the potential to make a higher gain is also associated with a high risk of loss. The '6' risk category does not guarantee your capital; the '1' category means your capital is exposed to low risk, but the opportunities for gains are limited. It does not mean a risk-free investment.

This UCITS is classified in category 6 because of its exposure to fixed income and equity markets, which can experience significant fluctuations.

Indeed, the net asset value can undergo variations due to the maturity of the securities, the sensitivity of the portfolio and the volatility of the equity market.

MATERIAL RISKS NOT TAKEN INTO ACCOUNT IN THE INDICATOR:

Credit risk: In the event of a deterioration in the quality of issuers or if the issuer is unable to meet its commitments at maturity, the value of such securities may fall

Risk linked to the impact of techniques such as the use of derivatives: The use of derivatives may lead to a decrease in net asset value over short periods and generate significant fluctuations of the net asset value in the event of exposure contrary to market developments.

Liquidity risk: It is the risk that a financial market, when the volumes traded are low, or if there are tensions on such a market, might not be able to absorb the volume of transactions (purchase or sale) without significant impact on asset prices. The net asset value may therefore fall faster and more sharply.

This risk may result in a fall of the net asset value.

CHARGES

The charges paid are used to cover the costs of running the UCITS, including the costs of marketing and distributing units. They reduce the potential growth of the investment.

CHARGES TAKEN BEFORE OR AFTER YOU INVEST

ENTRY CHARGE	2%
EXIT CHARGE	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases, the investor might pay less. Investors may obtain the actual entry and exit charges from their adviser or distributor.

CHARGES TAKEN FROM THE UCITS OVER A YEAR

ONGOING CHARGES	2%
-----------------	----

CHARGES TAKEN FROM THE UCITS UNDER CERTAIN SPECIFIC CONDITIONS

PERFORMANCE FEE	15% including tax of the outperformance above the EURO STOXX Net Return benchmark index
-----------------	--

The attention of the investor is drawn to the fact that the 'ongoing charges' figure is based on the estimated expenses as at the authorisation date. These charges may vary from year to year.

For more information on charges, please refer to 'fees' section of the prospectus for this UCITS, available on the website www.cmcic-am.fr

The ongoing charges do not include the UCITS' performance fees, the potential performance fees for the funds held and intermediary fees except in the case of entry or exit charges paid by the UCITS when buying or selling units or shares of other collective investment vehicles.

PAST PERFORMANCE

DISCLAIMER: Past performance is not a guide to future performance. This is not constant over time.

The performance is calculated with coupons and dividends reinvested and net of direct and indirect management fees and excluding entry and exit charges

The performance of the benchmark is calculated with dividends reinvested

- UCITS INCEPTION DATE: 28/05/2019
